An efficient technique for determining a price is to ship out a survey to your current customers. If these customers have already purchased an e-book from you, ask for their opinion in terms of price. Do that by making a sales web page for the new ebook, but do not embody a price on that page. As an alternative, add a number of hyperlinks to survey questions that ask pointed questions to help you in assigning a value to your ebook.

Another strategy is to test out prices by creating a variety of duplicate gross sales pages with different prices on every page. Make certain your gross sales copy is exactly the same on every web page, and contains your selling-deal with sentence. Then figure out for each web page the conversion ratio between guests to your website and sales of your book. This can tell you what your optimum value is.

Ultimately, if you've written a e-book that solves a problem or presents a brand new technique, your guide will bring in both site visitors and profits.
