In addition to selling your books assiduously online, there are several different methods that may enable you to sell extra books.

One is to offer something away without spending a dime along with your guide, reminiscent of a invaluable bonus item. Or bundle several ebooks beneath one price, which lowers the worth for each book in the event that they were offered separately.

An efficient technique for figuring out a price is to ship out a survey to your current customers. If these prospects have already bought an book from you, ask for his or her opinion in terms of price. Do this by creating a gross sales page for the new book, but don't embody a worth on that page. As an alternative, add a lot of hyperlinks to survey questions that ask pointed questions to assist you in assigning a value to your ebook.

One other strategy is to check out costs by creating a variety of duplicate gross sales pages with different prices on every page. Be certain your gross sales copy is precisely the same on every web

page, and contains your selling-handle sentence. Then work out for each page the conversion ratio between visitors to your website and gross sales of your book. This will let you know what your optimum value is.

Finally, when you've written a book that solves a drawback or presents a new technique, your e-book will usher in both traffic and profits. So you should definitely write that selling-deal with sentence that sums up what drawback your e-book solves and what the benefits of your 1997 guide will likely be to the customers who buy it.
