An effective approach for figuring out a price is to send out a survey to your current customers. If these customers have already bought an ebook from you, ask for his or her opinion by way of price. Do this by creating a gross sales page for the new e book, however do not embrace a worth on that page. As a substitute, add various hyperlinks to survey questions that ask pointed questions to help you in assigning a price to your ebook.

Another strategy is to test out costs by creating a variety of duplicate gross sales pages with completely different prices on every page. Be sure your sales copy is exactly the same on every page, and contains your selling-handle sentence. Then determine for every page the conversion ratio between visitors to your site and gross sales of your book. This may let you know what your optimum price is.

In the end, if you've written a book that solves a drawback or presents a new approach, your e-book will usher in both site visitors and profits.
