An effective approach for figuring out a worth is to ship out a survey to your present customers. If these clients have already purchased an e-book from you, ask for their opinion in terms of price. Do that by making a sales page for the new book, but do not embody a value on that page. Instead, add quite a few links to survey questions that ask pointed questions to assist you in assigning a worth to your ebook.

One other technique is to test out prices by creating a number of duplicate gross sales pages with different costs on every page. Be sure your sales copy is strictly the same on every web page, and

includes your promoting-deal with sentence. Then figure out for each web page the conversion ratio between visitors to your web site and sales of your book. It will let you know what your optimum price is.

Finally, in case you've written a e book that solves a downside or presents a new technique, your guide will herald both traffic and profits. So make sure you write that promoting-deal with sentence that sums up what downside your ebook solves and what the advantages of your 949 e book might be to the customers who buy it. After which watch your market come to you!
